A TIMELINE OF THE COSMIC LEGENDS UNIVERSE

- **14 billion years ago** *Everywhere*
The universe comes into existence. Current science has no explanation for how or why.
- **13.9 billion years ago** *Unknown*
The first form of life in universe arises under unexplained circumstances.

These early life forms will evolve into the race that would be known to Earth and Titan as the Visitors.

- **13.8 billion years ago** *Unknown*
The first intelligent civilization in the universe, the Visitors, arises.

- **13.75 billion years ago** *Unknown*
Having attained interstellar space flight, the Visitors begin to explore the galaxy in large worldships.
- **9.2 billion years ago** *The Solar System*
Gravity causes matter in a molecular cloud to coalesce into the Sun and planets of the Solar System.
- **8.5 billion years ago** *Andromeda Galaxy*
Visitor explorers trigger a 28-minute gamma burst to alert their homeworld of the discovery of the race that would be known as the Ro'Tan'Okk – the Titanians.

Earth-based scientists would later record the burst on Christmas day, 2010.

- **4 to 4.6 billion years ago** *The planet Earth*
The planet Earth and the Moon form.
- **4 billion years ago** *The planet Saturn*
Titan and the other moons of Saturn form.
- **3.85 billion years ago** *The Solar System*
Probes launched by the Visitors discover the Solar System and note the potential for life on Earth and Titan.

They leave behind multiple orbiting drones to monitor the planets and moons of the Solar System.

- **3.77 billion years ago** *The planet Earth*
The earliest forms of life arise around thermal vents in the oceans.
- **3.5 billion years ago** *The moon Titan*
The earliest forms of life arise in the subsurface ammonia oceans.
- **3 billion years ago** *The moon Titan*
After millennia of experimentation, the Visitors leave the Ro'Tan'Okk on Titan.
- **2 billion years ago** *The moon Titan*
The Ro'Tan'Okk – survivors of millennia of experimentation by the Visitors – form an organization of astronomers and soldiers to watch for the return of their previous captors.

These would come to be known on Earth as the Sentinels of Saturn.

- **200 to 500 million years ago** *Everywhere*
The "Cosmic Dark Age" of the universe ends as stars and galaxies begin to form."
- **ca. 1,000 BCE** *The South Pacific*
Humans experimented on by the Visitors steal a shuttle craft and crash in the Pacific Ocean near an uninhabited chain of volcanic islands.

Reverse-engineering Visitor technologies, they eventually devise a magnetic field that protects their islands from discovery. The existence of the Vulcanors would remain hidden until 1956.

- **5th Century, CE** *Post-Roman Britain*
Ambrosius Aurelianus, who would later become known in legend as "King Arthur", established an order of knights at Camulodunum.
- **6th Century, CE** *Camulodunum, Post-Roman Britain*
Perceval, a Welsh knight in Arthur's court, swears to recover the Holy Grail. Through unexplained means, he became immortal and is known as the Grailknight, one of the founding members of the Cosmic Legends.
- **August, 1900** *Belfast, South Africa*
Sir Percival, who would later be called the Grailknight, was captured at the Battle of Bergendal after fighting alongside the Boers against the British as part of the Irish Transvaal Brigade during the Second Anglo-Boer War. He was sent to a POW camp on the island of Saint Helena but escaped within a week.
- **May, 1910** *St. George's Chapel, Windsor Castle*
Sir Percival, the Grailknight, was sighted here paying his respects. He wouldn't be seen again until 1963.
- **June, 1938** *New York City, New York*
Historian John Arthur Dee IV called upon his family's magical legacy to defeat the world's first supervillain, Sinhammer, in Times Square.
- **August, 1940** *Campile, South Wexler, Ireland*
A lone German bomber drops several bombs on the Irish village of Campile, killing several.

Survivor Kitty Farrington was saved by the intervention of the Tuatha Dé Danann, who transformed her into their champion, Sequana. She later joins the British Merchant Navy, over objections of the Oireachtas Éireann – who sought to enforce Ireland's neutrality in World War II.

Sequana's actions during the war led to political discrimination when she returned to Ireland after D-Day, and she soon emigrated to the United States, where she operated as the first public "super-hero" in America.

- **March, 1941** *The South Pacific*
Fearing that war in Europe and the Pacific may be inevitable, U.S. scientists clone dinosaurs and implant them with control circuits to use as disposable soldiers.

- **November, 1944** *Boston, Massachusetts*
Teenage detective Madinia Dee, a former volunteer for the Boston Herald's "Rumor Clinic", is given her own advice column.
- **August, 1945** *Hiroshima and Nagasaki, Japan*
The United States uses nuclear bombs to destroy the cities of Hiroshima and Nagasaki, causing the Kyl'Sh'Tal of Titan to adopt a policy of non-interference with the planet W'Ty'Tah'k.
- **October, 1946** *Volcano City, Vulcanor Island*
Crown prince Obsidius Vulcanor born. He would later become the first non-founding member of the Cosmic Legends of the Universe team.
- **July, 1947** *Roswell, New Mexico*
A malfunctioning Visitor monitor probe crashes in the southwest region of the United States, alerting humans to the possible presence of intelligent life elsewhere in the Solar System.
- **October, 1947** *United States*
The United States creates the Agency for the Licensing of Extra-Human Resources and Threats with the merger of the National Security Agency and the National Advisory Committee for Aeronautics, under the United States Department of Defense.

(In the Cosmic Legends Universe, NASA – a civilian agency – would not be founded; instead, all space operations would remain under military control.)

- **July, 1949** *The South Pacific*
A U.S. pilot reported sighting the G.I. Dinosaurs on an island near what would later be revealed as the Vulcanor island chain. The later activities of the 'Dinosaurs are not recorded.
- **August, 1952** *Boston, Massachusetts*
After August of 1952, John Dee withdrew from public life to spend more time with his family.
- **August, 1956** *The moon Jarnsaxa*
Kyl'Sh'Tal sensors on Jarnsaxa detect the entry of a massive Visitor craft entering the orbit of Jupiter on a course toward W'Ty'Tah'k.

Sentinel Ty'Tonn To'Rezz brings these findings to Kyl'Sh'Tal high command and urges action. Their petition is denied.

- **October, 1956** *The moon Jarnsaxa*
Having returned to their spouses on Jarnsaxa, Ty'Tonn plans heads to warn W'Ty'Dah'k of the approaching Visitors.

- **November, 1956** *Earth orbit*
The Visitors' worldship arrives in orbit around the planet Earth. Visitor shock troops begin to catalog the civilizations of the planet by kidnapping individual humans from around the Earth.
- **November, 1956 to January, 1957** *Worldwide*
The nations of Earth rally behind A.L.E.R.T., Sequana, and Ty'Tonn To'Rezz – now calling themselves "Titan" – to drive off the Visitors.

Young prince Obsidius and the Volcano City Militia join the fight, revealing the presence of Vulcanians to the outside world.

See also: *The Visitors*

- **January, 1957** *The moon Jarnsaxa*
The Kyl'Sh'Tal's listening post on Jarnsaxa destroyed by the retreating Visitor worldship when the post's cloaking screens fail under mysterious circumstances.

All personnel, including Ty'Tonn To'Rezz's three spouses and their sibling My'Tonn, are killed.
See also: *Titan*

- **March, 1957** *Outside the orbit of Neptune*
Having discovered the devastation of Jarnsaxa, Ty'Tonn and Obsidius pursue the Visitor worldship and free a group of kidnapped humans who were being subjected to medical experiments. Upon being returned to Earth, these humans became known as the Foreigners, with some settling on an island near Vulcanor and others returning to their home nations. These two camps would become the two Exiles and Settlers factions of the Foreigners.

- **March, 1964** *Sun City, U.S.A.*
18-year-old Obsidius Rex joins the Cosmic Legends as their first non-charter member, under the name "Volcano Kid" – which he soon abandons to simply go by his own name.
See also: *Obsidius Rex*
- **July, 1964** *Vadyvokia*
Marquis Magnus Malign, Delphine Thompson, Sequana, and Dr. Phineas Pann meet in secret to lay the groundwork for what would become Villains, Inc. Malign later banishes them from Vadyvokia.
- **June, 1965** *Albuquerque, New Mexico*
Hazel Montgomery is recruited to join A.L.E.R.T.; in time, she will go on become Vespa (I) and a founding director of N.O.V.A. Labs.
- **October, 1965** *Vadyvokia Castle, Vadyvokia*
After a whirlwind romance, Vespa (I) and Marquis Malign have a perfect "storybook wedding."
- **July, 1966** *Technopolis, U.S.A.*
Dr. Phineas Pann (Senior) secretly recruits A.L.E.R.T. agents to form a terrorist splinter group.
- **November, 1968** *Vadyvokia Castle, Vadyvokia*
Lin Montgomery, the child of Hazel Montgomery and Magnus Malign, is born. She would later be known as Bug (I), the Hornette, and Vespa 2.0.
- **December, 1971** *Technopolis, U.S.A.*
Titan, Lin Montgomery, Dr. Phineas Pann, Delphine Thompson, and King Tachylus Rex create the Network for Observation, Verification, and Analysis, opening the first laboratory in Technopolis, with Hazel Montgomery as the founding director.
- **June, 1973** *Technopolis, U.S.A.*
Ignoring safety protocols, Delphine Thompson activates an experimental reactor, apparently killing her ten-year-old son Delmore and giving herself energy powers as Neutrino.
- **October, 1978** *Technopolis, U.S.A.*
After several "ghostly sightings" around Technopolis, Hazel and Lin Montgomery help stabilize Delmore Thompson's energies, allowing him to reform his body from pure nuclear energy.
See also: *Energy Boy*
- **November, 1980** *Technopolis, U.S.A.*
A.L.E.R.T., N.O.V.A. Labs, Sun City University, and the Vulcanor Island Institute of Technology jointly establish Technopolis Academy to train young superheroes and scientists. Lin Montgomery and Del Thompson are the first students.
- **November, 1981** *Vadyvokia Castle, Vadyvokia*
After uncovering his ties to Villains, Inc., Vespa (I) is attacked by Marquis Malign. She takes her young child, Lin, and flees the country, returning to Technopolis.
- **February, 1982** *Sun City, U.S.A.*
Sequana is stripped of her powers by the Tuatha Dé Danann. Seeking more power, she ambushes Johnny Dee: Master Magister and drains him of his power and his life.
- **March, 1982** *Skryne, County Meath, Ireland*
Archaeologist Sienna MacGowan is chosen by the Tuatha Dé Danann as their new champion. She joins the Cosmic Legends two months later.
- **April, 1982** *Boston, Massachusetts*
"Brigantia, Miss Magister: Maddie Dee, and Jack Dee seek out Sequana to bring her to justice for the death of Johnny Dee. Upon Maddie's death, her powers go to Jack, who uses them to banish Sequana to Otherworld."
- **September, 1982** *Technopolis, U.S.A.*
Bug (I), Energy Boy, the Kaleidoscope Kidd, and Marlinpike form the Junior Legends of America when the Cosmic Legends team are kidnapped by Marquis Malign.
- **May, 1984** *Sun City, U.S.A.*
Zaar, a lightning-wielding time-traveller from the 24th century, appears at the abandoned headquarters of the Cosmic Legends. She joins the Legends five months later.
- **October, 1984** *Pittsburgh, Pennsylvania*
After being expelled from Mag Findargat, the Cosmic Legends establish a base adjacent to the grounds of Chatham University. Their headquarters remains at the Gate House until May, 1987.
- **May, 1987** *Technopolis, U.S.A.*
A new floating base for the Cosmic Legends is established, built on an anti-gravity platform outside of Technopolis.
- **August, 1989** *Technopolis, U.S.A.*
The floating headquarters of the Cosmic Legends is destroyed in an attack by Xana Mega the Aos Sí armies, and Villains, Inc.
- **September, 1994** *Sun City, U.S.A.*
Zaar executes the defeated villain Sinhammer. Rather than face trial for her actions, she instead returns to the 24th century.
- **April, 2002** *Technopolis, U.S.A.*
After resigning from the Junior Legends, Lin Montgomery takes up a new alias as the Hornette as part of a ruse to infiltrate Villains, Inc.
- **April, 2003** *Earth orbit*
A Visitor worldship appears in orbit. The Cosmic Legends, the Junior Legends, and the Foreigners join with A.L.E.R.T., the

Kyl'Sh'Tal, the Vulcanor Militia, and the Vadyvokian Armed Forces to drive them away. Hazel Montgomery (Vespa) is killed in action against the Visitors' shock troops.

- **May, 2003** *Technopolis, U.S.A.*
Lin Montgomery rejoins the Cosmic Legends as Vespa 2.0 and comes out publicly as non-binary. They're granted special reserve status in the Junior Legends as well.
- **December, 2015** *Sun City, U.S.A.*
After decades of allowing Earthlings to use he/him pronouns for them, Titan holds a press conference and announces that they would be using they/them pronouns henceforth. This is reported on the front

page of the *New York Times*.

- **March, 2020** *Sun City, U.S.A.*
N.J. Campbell returns to Earth for the first time in decades. Ultimately, she decides she no longer fits in with the planet and returns to the stars 11 months later.
- **24th Century, Early** *Technopolis, U.S.A.*
Lightning-caster Zaar travelled from this time period to the 20th century, where she became a member of the Cosmic Legends. After killing Sinhammer while the villain was in custody, she returned to the 24th Century rather than face trial for her actions. Zaar's later activities are undocumented.
